Welcome to Our Practice!

On behalf of our staff, we welcome you to the Young Eye Institute. We're pleased that you've selected us to care for your medical vision needs.

Our main goal is to provide you with your best vision possible. In an effort to give you more details about your visit to the Young Eye Institute, we've designed this brochure to give you and your family the most up-to-date information on cataract care.

In this brochure you will find your scheduled appointment time, biographies on our doctors and a map to our facility.

The Young Eye Institute is proud to be the only facility in Texoma offering Laser Cataract Surgery with the Alcon LenSx® Laser.

We're also proud to be the only Texoma facility to offer the revolutionary RxSight Light Adjustable Lens. This lens allows our doctors to fine tune your vision AFTER your cataract surgery!

We hope you will find your visit with us to be both beneficial and enjoyable. If any questions remain after you finish reading this brochure, please don't hesitate to contact us.

Sincerely,
J.J. Young, M.D.

Light Adjustable Lens™

Test Drive Your Vision

Exclusively in Texoma from Young Eye Institute

Laser Cataract Surgery

The Young Eye Institute is proud to be Texoma's **only** facility offering Laser Cataract Surgery with the Alcon LenSx® Laser.

Using the LenSx® Laser allows Dr. Young and his surgical team to improve the reliability and safety of cataract surgery, while providing more precise and consistent results.

The laser's advanced bladeless precision promises to improve patient outcomes and increases the likelihood of seeing well without glasses following cataract surgery.

Your Appointment is scheduled for:

Please remember to bring the following:

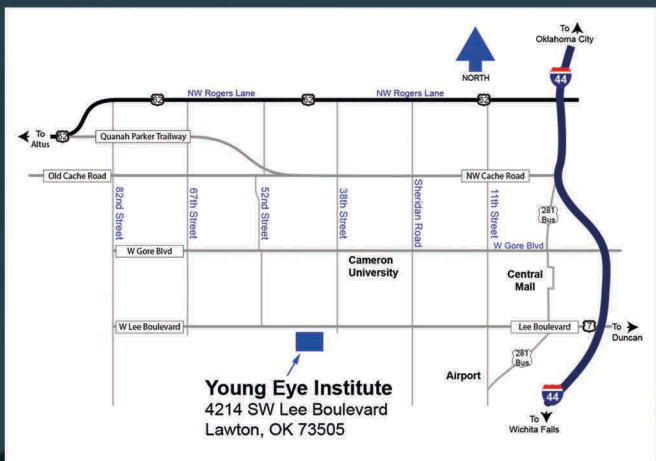

- **Current Insurance Card(s)**
- **List of Your Current Medications**

This appointment may include a full eye examination, dilation and retinal exam. Expect to be with us at least one hour for this appointment. We recommend you bring a driver with you.
